Background

Fertility-related healthcare is diverse and can include fertility treatment services such as medications to assist in conception, in vitro fertilization (IVF), and others. It may also include fertility preservation services, such as egg retrieval and storage.

In the United States, however, fertility-related healthcare is often not covered by insurance. As a result, and to support family building, some states have passed laws that require insurers to cover fertility treatment and/or preservation care. But, even when fertility healthcare is covered by insurance, many states still have definitions of “infertility” or other terms that may exclude many people, including single people and LGBTQ people from otherwise covered care. As a result, LGBTQ people may have to spend thousands of dollars in out-of-pocket costs to grow their families, even when this care is covered for other people.

In 2023, the [American Society for Reproductive Medicine \(ASRM\)](#) updated its definition of “infertility” to make it more inclusive of all people, including LGBTQ people, who seek fertility healthcare. However, significant gaps in state laws and in coverage remain across the country. This citation sheet and related Equality Maps track current laws regarding state-mandated coverage of fertility treatment and fertility preservation by both private insurers and state Medicaid programs.

Equality Maps & Additional Resources

- See our [Equality Map: Fertility Treatment Coverage](#) and [Equality Map: Fertility Preservation Coverage](#), which are both updated and maintained in real time alongside this document.
- American Society for Reproductive Medicine (ASRM)
 - Inclusive [definition of infertility](#) (2023)
 - [State and Territory Infertility Insurance Laws](#)
- This map and citation sheet was developed in partnership with [GLBTQ Legal Advocates & Defenders \(GLAD Law\)](#), including with legal research and support from Polly Crozier, Bridget Simons, Donovan Bendana, and Josephine Ban.

Details on Categories & Scoring

Fertility Treatment categories and scoring:

- (+1) State requires private insurers to cover fertility treatment care and is explicitly inclusive of LGBTQ people
- (+0.75) State requires private insurers to cover fertility treatment care
- (+0.5) State requires coverage from at least some private insurers or of at least some fertility treatment care, though requirements differ across states
- (+0.25) State law requires private insurers to *offer* coverage, but employers may still choose to not include that coverage
- (0) State law does not require private insurers to cover fertility treatment care

Additional points can be earned or deducted for Medicaid coverage and/or exclusionary language:

- (+0.5) State law requires Medicaid to cover at least some fertility treatment care, though coverage differs across states (see citations for more detail)
- (-0.25) State law has requirements that may exclude some LGBTQ people or couples

A state's law is listed as "LGBTQ inclusive" (+1 category) if the law reflects [ASRM's updated standards of care](#), has gender-inclusive language, and does not restrict access on the basis of marital or relationship status. For example, D.C.'s inclusive law defines infertility as including a "person's inability to reproduce without medical intervention either as a single individual or with their partner." Maine's inclusive law defines "fertility patient" as "an individual unable to conceive as an individual or with a partner because the individual or couple does not have the necessary gametes for conception."

States are only coded as requiring coverage if they require coverage of *treatment* (e.g., IVF, medications, etc). Covering tests, diagnoses, or counseling only is not sufficient for inclusion here, so please note that some states may require coverage of testing, counseling, etc. but that is not reflected here.

Fertility Preservation categories and scoring

- (+1) State requires private insurers to cover fertility preservation, including storage
- (+0.5) State requires private insurers to cover fertility preservation, but not storage
- (+0.25) State requires private insurers to cover fertility preservation, but only for cancer patients
- (0) State does not require private insurers to cover fertility preservation

Additional points can be earned for Medicaid coverage:

- (+0.5) State requires Medicaid to cover at least some fertility preservation or for some (i.e., cancer) patients

State-by-State Sources & More Detail

Alabama

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Alaska

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Arizona

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Arkansas

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
 - (-0.25) Note, state law has requirements that may exclude some LGBTQ people
 - Benefits only provided if patient's eggs "are fertilized with the sperm of the patient's spouse," which may not apply to all LGBTQ people or couples
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [Ark. Code § 054.00](#) and [HB 1886/Act 920](#) (1991), including 054.00(5)(b) for LGBTQ-exclusionary requirement; [A.C.A. § 23-85-137](#); and [Medicaid Provider Manual](#) (Section 1 lists "infertility treatment" as not covered)

California

- Fertility treatment
 - (1) State law requires private insurers to cover fertility treatment and is explicitly inclusive of LGBTQ people
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [SB729](#) (2024; treatment), [SB600](#) (2019; preservation), [Family Planning Manual](#) (showing lack of Medicaid coverage of fertility studies or procedures)
- Previously, state law required (0.25) private insurers to *offer* coverage of fertility treatment care, but employers could still choose to not include that coverage ([AB460](#), 2013, amending Insurance Code 10119.6). Improved by [SB729](#) (2024).

Colorado

- Fertility treatment
 - (1) State requires private insurers to cover fertility treatment and is explicitly inclusive of LGBTQ people
 - (0) No state law requiring Medicaid to cover fertility treatment, though note that related services (such as testing or counseling) may be covered
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [CRS 10-16-104\(23\)](#) (2020, eff. Jan 1, 2023) and [Health First Colorado \(Medicaid\) services overview](#) (“fertility assessments” section shows lack of coverage of actual treatment, though “basic fertility assessments and counseling to evaluate a member’s ability to become pregnant” are covered)

Connecticut

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0.5) State requires Medicaid to cover at least some fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [Conn. Gen. Stat. §§ 38a-509\(a\), 38a-536\(a\)-\(f\), HB 7124](#) (2017), [Insurance Bulletin HC-125](#) (2019), and [Medicaid Member Handbook](#) (showing fertility services not covered)

Delaware

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [Del. Insurance Code Title 18, 1 § 3342](#) and [Medicaid MSA](#) (showing fertility services not covered, see p.82)

District of Columbia

- Fertility treatment
 - (1) State requires private insurers to cover fertility treatment and is explicitly inclusive of LGBTQ people
 - (0.5) State requires Medicaid to cover at least some fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See Act 25-173/[Law 25-49](#) (2023)

Florida

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Georgia

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
 - Note, [HB428](#) (2025) affirms that nothing in Georgia law prohibits IVF, but this law does not require insurers to cover IVF.
- Fertility preservation
 - (0.25) State requires private insurers to cover fertility preservation, but only for cancer patients
 - Also applies to patients with sickle cell and lupus
 - (0) No state law requiring Medicaid to cover fertility preservation
 - See [HB94](#) (2025, effective Jan 1, 2026)

Hawai`i

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment, though note that related services (such as testing or counseling) may be covered
 - (-0.25) Note, state law has requirements that may exclude some LGBTQ people
 - Benefits only provided if patient's oocytes "are fertilized with the patient's spouse's sperm," which may not apply to all LGBTQ people or couples
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [§431:10A-116.5](#) (treatment, and potentially exclusionary language)

Idaho

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Illinois

- Fertility treatment
 - (1) State requires private insurers to cover fertility treatment and is explicitly inclusive of LGBTQ people
 - (0.5) State requires Medicaid to cover at least some fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0.5) State requires Medicaid to cover at least some fertility preservation
- See [215 ILCS 5/356m](#) (treatment) and [HB 3709](#) (2021); [215 ILCS 5/356z](#) (preservation) and [HB 2617](#) (2018); and [HFS \(Medicaid\) Family Planning Program Covered Services](#)

Indiana

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Iowa

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Kansas

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
 - (0) No state law requiring Medicaid to cover fertility preservation

Kentucky

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (1) State requires private insurers to cover fertility preservation, including storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [304.17A-261](#) or [HB170/Act 2023,c.30](#) (2023, eff. Jan 1, 2025), [KY Medicaid Member Handbook](#) (showing lack of Medicaid coverage for IVF, fertility drugs)

Louisiana

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
 - See [Louisiana R.S. 22:1036](#), which bans exclusions of coverage of health care that might result in infertility, but also specifically says it does not require insurers to cover infertility treatments, including IVF.
- Fertility preservation
 - (0.25) State requires private insurers to cover fertility preservation, but only for cancer patients
 - (0) No state law requiring Medicaid to cover fertility preservation
 - See [Louisiana R.S. 22:1036.1](#) and Act 2023,299 (2023, eff. Jan 1, 2024)

Maine

- Fertility treatment
 - (1) State requires private insurers to cover fertility treatment and is explicitly inclusive of LGBTQ people
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (1) State requires private insurers to cover fertility preservation, including storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [Maine Revised Statutes 24-A § 4320-U, LD 1539/PL 2021 c.692 \(2022, eff. Jan 1, 2024\)](#), and [MaineCare Benefits Manual Ch II – Section 30](#) (showing lack of Medicaid coverage)

Maryland

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0.5) State requires private insurers to cover fertility preservation, but not storage
 - (0.5) State requires Medicaid to cover at least some fertility preservation
- See [Md. Code, Ins. § 15–810.1, SB 271](#) (2018), and [SB 460](#) (2023; The Trans Health Equity Act, including preservation coverage in Medicaid)

Massachusetts

- Fertility treatment
 - (0.75) State requires private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment, though note that related services (such as testing or counseling) may be covered
- Fertility preservation
 - (1) State requires private insurers to cover fertility preservation, including storage
 - (0) No state law requiring Medicaid to cover fertility preservation
- See [211 CMR 37.00](#) (Act 1987, c.394; [Act 2010, c.288](#); treatment), [Act 2024, c.140](#) (2024; preservation), and [MassHealth Manual](#) (see 421.417: Noncovered Services, showing state Medicaid does not cover fertility treatment but does cover diagnosis of infertility)

Michigan

- Fertility treatment
 - (0) No state law requiring private insurers to cover fertility treatment
 - (0) No state law requiring Medicaid to cover fertility treatment
- Fertility preservation
 - (0) No state law requiring private insurers to cover fertility preservation
